ePillars

Corporate Profile

Pillars for the Digital Age

ABOUT ePillars

The current Information & Communications Technologies (ICT) used by most of the organizations are based on first Generation of new technologies, which is more than 15 Years old now. Newer, more efficient and far superior technologies have been in the market for some time now. ePillars, based in Dubai, is a leading provider of innovative solutions for Information & Communication needs of organizations. We believe the major pillars of the Digital Age are Social, Mobile, Analytics, Cloud, IoT and Security technologies. We provide those pillars for smooth migration of organizations to the digital age. Our goal is to reduce the IT burden and make IT more simplified, agile, cost effective and business- friendly.

OUR OFFERINGS

● ERP - Enterprise Resource Planning

A good ERP system boosts productivity, streamlines processes and most importantly, maximizes profit! Our range of ERP systems are tailored to meet the needs of the different segments - Large, Medium, and Small

● HCM & HR Solution

Our HCM & HR solution covers your organization's human capital management needs from hire to retire.

● HR Visualization solutions

Our leading Automated organizational charting and planning solutions can be integrated with existing frameworks with ease. Our solutions cater to a wide range of business needs and workforce population.

● Talent & Learning Management

SABA combines the Learning & Talent Management System with social media platform to provide a unique and friendly experience to the users.

● ICT Solutions

We offer complete Information & Communication solutions include Unified Communication, Wi-Fi Systems, Thin Client Computing, VDI, Virtualization etc..

● Video Conferencing

Our high quality and cost effective video conferencing solutions find application in all kinds of domains including schools, hotels, offices and homes. The state-of-the-art technology employed by our solutions enable smooth video and audio quality.

WHY ePillars

Our solutions are in tune with the times when customers are seeking cost effective and standard based solutions to avoid costly vendor lock-in.

We provide user-friendly license free solutions for ERP, CRM, Unified Communications (UC), IP/PBX and Call Centers. We are also one of few integrators who provide an integrated bundle of ERP, CRM, Unified Communications, Call Center, Thin Clients and WiFi solutions.

Our solutions are the most cost-effective in the industry as they are based on standard Internet technologies.

● Financial Messaging System

We provide Message Hub & Payment Hub for Banks and Financial institutions.

● Call Centre Systems

We provide Elasitx/Asterisk based Call Centre systems integrated with Odoo CRM.

● eCommerce & Web Development

Our Dedicated development team helps you to improve by creating affordable and user friendly eCommerce website for your business. We are also specialised in making corporate and service oriented websites as per your requirments with latest trending technologies.

● Cloud computing solutions

ePillars provides economical cloud computing solutions including OpenStack and helps clients to migrate their systems and data to the cloud securely

● Information Security

ePillars provides various security services including Digital Certificates, Identity & Access Management (IAM) and Single Sign-On (SSO). Our solutions help prevent malware from affecting organizational network and also verify authenticity of transmitted messages and e-mails.

● Home/Office automation

Control your home security system even away from home. Integrate all your electronics including lighting, thermostat, TVs, music system and control them all using your mobile device or tablet. ePillars offers complete automation solutions which can be set up in new as well as existing homes or offices.

OUR PRODUCTS

ePillars focuses on providing innovative and cost-effective products and solutions to our customers which give high Return on Investment (RoI). We pride ourselves in the ability to integrate a large number of different solutions. This is especially desirable in the SME sector, where budgets for IT is minimized. What's more, most of our solutions employ license-free products, meaning that you will only incur professional service charges. This combination of attributes makes ePillars a unique system integrator in the Middle East.
